

## Choosing the Highest-Quality Heavy-Duty Mulch Bags

In manufacturing soils or mulch, the bag you choose to hold your product is just as important as the product itself. Today, consumers are far more eco-conscious than in the past, and with very good reason. With rising concern regarding the environment, more consumers than ever are concerned about choosing products packaged in environmentally responsible, sustainable packaging. As a manufacturer of soils and mulch and other products, it is vital that you choose products that will meet the discerning demands of consumers. Not only is this the right thing to do, but doing so can help you to stand out from the competition and help your company to become a socially responsible leader.

At Poly Pak America, we manufacture only the highest-quality heavy-duty bags for soils or mulch. Our heavy-duty mulch bags are manufactured in a variety of gauges and sizes. In addition to being used for mulch, these bags can also be easily used for chemicals, wood chips, soils, decorative bark, wood pellets, fertilizers, and more.

### Custom Branded Heavy-Duty Mulch Bags

Along with choosing a product that is produced to environmentally responsible standards, it is also important to choose a bag that will assist in your branding efforts. Your product in the bag in the store is *your* salesperson. This is something we understand at Poly Pak. In business for more than 40 years, we understand what it takes to build a successful enterprise. All of the bags Poly Pak manufactures can be turned into fine and very attractive custom printed bags by simply adding your graphic design in up to eight color process or line printing. As a result, each time a customer sees one of your mulch bags, he or she will be attracted instantly to your logo and brand. This is a great way to build customer retention programs.

Mulch and soil bags are manufactured with "V"Zuhî , a co-extruded film. These bags are designed to provide excellent sealability, high strength, 6-month weather protection, and a nonslip outside surface with a special easy opening inside surface that makes it ideal to fill, palletize and ship. õV"Zuhî can be clear, white, or the color of your choice. Mulch bags allows your products to be packaged with instructions and unique ingredients, if you desire. Our heavy-duty mulch bags are available in ½-cubic-foot, 1-cubic-foot, 2-cubic-foot, and open-mouth bag options.
