Sigma Plastics  
Group family!

Insights into the individual companies that make up the Sigma Plastics Group

# Sigma Plastics Group Spotlight

## Our Mission >>>

### PolyPak Packaging

*has been covering packaging needs since 1971. We proudly recognize our responsibility to our country and the environment. We are committed to the sustainable and environmentally friendly products, services, and programs.*

We think outside the plastic box through collaborating with others and exploring new ways to develop plastic products that are recyclable and energy conscious. Products

that create tremendous value to our clients.

We take great pride in our people and their commitment to delivering impeccable results to our clients.

## Benefits of PolyPak Custom Mailers >>>

Today, the volume of mailers and envelopes is so great, that this is where environmentally friendly plastic envelopes are a huge benefit.

PolyPak Packaging is taking a stance against pollution by offering mailers and envelopes deemed environmentally safe including plastic mailing envelopes, returnable shipping envelopes, shipping envelopes, and promotional plastic envelopes. What makes our stock unique is that they are manufactured with up to 35 percent post-consumer recycled plastic.

Poly Mailers lower the amount and cost of having to use extra materials such as corrugated boxes, tape, and loose fill which in turn also minimizes the amount of these materials going to landfills. They are also more compact, taking up less room with less weight on trucks, with the added benefit of most mailers containing recyclable materials. The amount of energy, water, trees, and emissions it takes to manufacture corrugated boxes is far higher than the amount of resources and energy it takes to manufacture plastic mailers.

## PolyPAK Packaging

**"A plastic company with a conscience."**

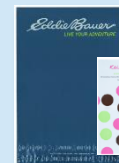

*PolyPak is a leader in the manufacturing of polyethylene envelopes and mailers as well as heavy duty bags, security bags and specialty films for the lawn and garden markets. Plant Location: Los Angeles, CA.*

Poly Pak has the capability to print quality picture perfect graphics (process print), on polyethylene film. Their printing technology allows them to produce leading edge technology film products with beautifully printed and appealing images.

### Custom Poly Bags & Films for Lawn and Garden Markets

Our heavy duty bags are plastic shipping bags that are constructed using strong polyethylene films which are designed to serve as holding for fertilizers, sand, garden compost, mulch, wood pellets, potting soil, seeds, decorative rocks, and other heavy industrial products. If you've ever walked through the gardening department in stores, you've probably seen our bags on shelves.

### Custom Poly Mailers

Have you ever purchased an item online and had it delivered to your home? Our Poly Mailers are suited for this purpose. In today's competitive marketplace, Poly Pak is a leader in developing innovative products that meet the demands of e-commerce customers. Poly Pak is making great strides to improving performance while enhancing environmental attributes along with providing a competitive price.
